Coos Bay Rail Line, Inc. Annual Budget FY 2019/20

John Burns, President Coos Bay Rail Line, Inc.

COOS BAY RAIL LINE, INC - FISCAL YEAR 2019/2020 BUDGET

INTRODUCTION

This budget message is intended to explain the context and content of the budget document which will be used for Coos Bay Rail Line, Inc. (the Railroad), a wholly owned subsidiary of the Oregon International Port of Coos Bay (Port). The basis of this budget is the Railroad's operating plan. This document may be further refined before presentation to the Railroads Board of Directors for adoption after input from the Committee has been received.

Fiscal Year 2019/2020 represents the Railroad's first full year of operation under the since its inception on November 1, 2018. The Railroad's primary mission for this instant period will be to continue the process of integrating the rail operation with the rest of the Port's business lines. As with any new entity, we will continue to grow and learn with experience. Focus for the coming year will be on Safe Operating Procedures, Resource Management, Customer Development, and Intrastation.

The operations of the Railroad are supported by revenues that are generated from our customer base in the form of Carloads, Demurrage, and miscellaneous other sources. Our current optimal capacity on the line is 10,500 cars per year. The line has had annual volumes in excess of 7,500 cars per year since the Port acquired the line in 2009. Given the recent loss of one of the Railroad's customers, we are estimating car volumes of 7,000 for the coming year. With our perceived volume we expect revenue from Carloads to be \$4,063,964.00 for the period. During FY 2019/20, Demurrage is projected to be \$50,000.00 and Other Revenue will be \$156,000. Total Revenue is expected to be \$4,269,964.

The major focus of the Railroad's efforts will be on Safe Operations. This will be achieved by ensuring that all operating procedures are 1) Codified 2) Communicated 3) Understood and 4) Followed. Our objective is to have a record of zero incidents for the year. Appropriate resources will be applied to ensure we have every opportunity to meet this goal.

During FY 2019/20 we will continue to fine tune our resources, whether they are capital, human, or physical. At the start of rail operations in 2018, we had 15 employees serving in the Administrative, Maintenance of Way, and Transportation departments. We anticipate the number of FTE's to increase to 20 in the next fiscal year. We will continue to work to optimize our fleet of locomotives, hi-rails and other vehicles to cover our operational requirements in the most cost-effective fashion. Given the fact that we expended a considerable amount of finical resources on the acquisition of rolling stock in the previous year, we do not anticipate a significate demand of cash for major purchases of assets. We will enter into a fleet management arrangement to secure roadway vehicles rather than continuing to rent or make out right purchases. This fleet management agreement will have a cost of \$15,000.00 per year.

A plan has been developed for continual Maintenance of Way with considerable focus on the replacement of ties, rail and ballast. This will include \$250,000.00 for capital improvements to our rail. This will be in addition to the work underway on our Tunnel Rehab project and the impending Bridge Projects which will be carried out under our US DOT BUILD Grant.
